FULL STACK PROJECTS

Streamer

<https://infinite-cliffs-65236.herokuapp.com/>

Github Repo:

<https://github.com/catalinarose1361/Streamer>

This **Node.js** application is a tool for users to keep track of the movies and tv shows they watched or want to watch. User authentication was developed using **Passport.js**, user specific data is stored using **Sequelize**, and displayed with **chart.js**. Styling utilizes **Materialize** and **Gramin.js**.

Coding Corgi E-Commerce

<https://coding-corgis.herokuapp.com/>

Github Repo:

<https://github.com/catalinarose1361/Coding-Corgi-E-Commerce>

This **MERN Stack** application connects coders with hourly coding work. Following a basic E-Commerce model a user can be authenticated using **Passport**, shop for services displayed using **React** Components, add the service components to a cart, checkout, and view an order history that has been saved to a **MongoDB**.
